## **LITTER POLICY**

Benin Electricity Distribution Company (BEDC) is committed to a Litter Policy which is in line with National and International waste management requirements. This is intended to be a driving force in instituting a continuous Litter campaign and in so doing changing the mind-set and culture of all employees, visitors and other stakeholders.

It is an offence punishable through the disciplinary action process if caught intentionally littering anywhere within the BEDC offices, business units and designated operational areas.

Management will provide trash bins and maintain a Service Level Agreement (SLA) with an appointed and government accredited waste removal company who will collect and dispose all type of wastes twice monthly at all BEDC locations.

Management shall provide and implement a waste segregation program whereby all users at BEDC facilities will be required to place waste in separate bins for plastic, metals, paper and organics.

Management shall review this policy on an annual basis during the management review and will inform all employees if and when changes are brought about.
